FENGYUN Satellite Data Access Update and Application Services

Wei ZHENG

National Satellite Meteorological Center (National Center for Space Weather), CMA

The data policy of FENGYUN satellite data, the status and future plan of the FENGYUN satellite data distribution and services are introduced. FY-3E and FY-4B data distribution information is updated. FENGYUN satellite data are open to The National Meteorological Services (NMSs) and other international organizations and users for free charge via many ways. For real-time users, FENGYUN satellite data can be accessed via direct broadcasting station, CMA data broadcasting system (CMACast) and public cloud. For non-real-time users, FENGYUN satellite data can be accessed from the FENGYUN satellite data center website, downloading toolkits and offline data services. For emergency users, FENGYUN satellite emergency support mechanism (FY_ESM) is useful to NMSs. The software platform of FENGYUN Earth is provided to the international user for enhancing FENGYUN satellite data application this year.
